

Milestone Systems

XProtect® Essential

Brilliant simplicity

Cost-effective and easy-to-use IP video surveillance software with basic features for small businesses

Affordable and intuitive surveillance

XProtect® Essential is simple and effective open platform video management software (VMS) for single-location businesses that require basic surveillance. It is ideal for installations that primarily capture video recordings of incidents and reactively conduct investigations.

XProtect Essential is an entry-level product that allows users to effortlessly add cameras and quickly find and export video sequences with easy-to-use video search tools.

Quick facts

- ✓ Manages up to 26 cameras
- ✓ 64-bit Recording Servers
- ✓ Supports five concurrent users

Easy to use

- ✓ Quick and easy installation ensures the system is up and running with just a few mouse clicks
- ✓ Choice of three viewing clients XProtect® Smart Client, XProtect® Web Client and Milestone Mobile available in 26 languages suit users of all skill levels

Widest choice in hardware

- ✓ XProtect Essential integrates with the widest choice of cameras, providing the freedom to choose hardware according to needs and budget
- ✓ Support for ONVIF™ and PSIA compliant devices

Future-proof

- ✓ A one-year Software Upgrade Plan (SUP) is included, providing access to any new product features and cost-efficient upgrades
- ✓ Easily expand the system with the purchase of additional camera licenses when required
- ✓ Effortlessly scale up as surveillance requirements grow with Milestone Interconnect™, which offers centralized operation of multiple XProtect Essential sites to the premium product, XProtect® Corporate

Secure video evidence

- ✓ Cameras in the system can record video when specific motions are detected, such as people entering a building at night, ensuring users have video footage of potential incidents

Stay alert and responsive

- ✓ Ensure system components are functioning properly with system alarms which alert users to issues such as malfunctioning cameras and storage servers
- ✓ Quickly address issues at all times with the ability to access video and respond to incidents from various locations using computers and mobile devices
- ✓ The Customer Dashboard is a monitoring service that allows resellers to ensure installations are operating at an optimal level (requires a valid SUP).

Quickly locate and distribute video evidence

- ✓ Efficiently find video footage of incidents by searching for motion in one or more areas of video from a specific camera
- ✓ Easily share evidence exports, such as video or images, via a media player, email and MMS

XProtect Go

- 8 cameras
- Single-server
